

Buddy Box

Welcome to '**Buddy Box**', as we know when a new student arrives at a new school they are paired/buddied up with another student, one which helps them to navigate the school, and to have a friend.

Buddy Buddy System

Buddy Box

By way of an introduction, I am a Military Veteran and entrepreneur seeking to give something back, doing my bit to help. My name is Mark Hill and I'm passionate in helping others through effective communication skills, education and learning.

**Inspiring others – Releasing
their Potential**

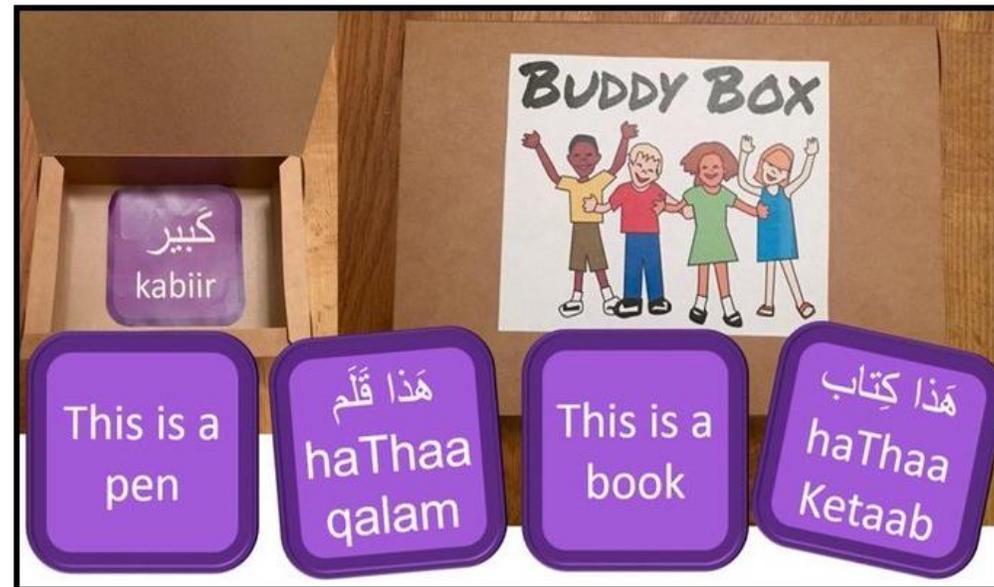

Syrian Buddy Box

Previously in 2018 I created 'Buddy Box' which was a fun and interactive way in which to engage young Syrian children who attended our local school.

Syrian Buddy Box

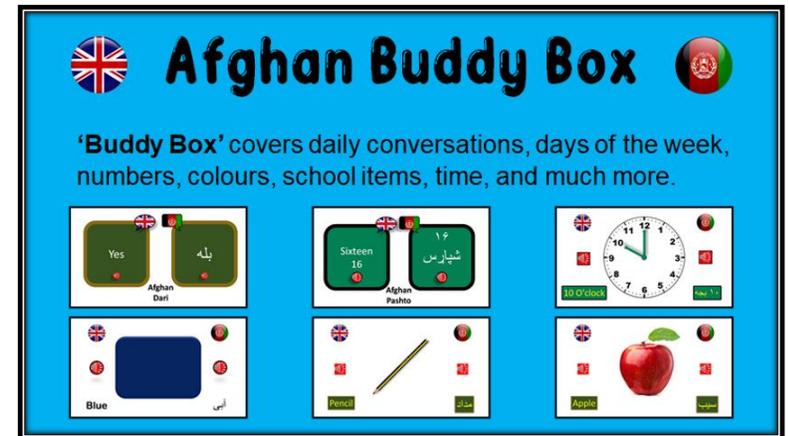

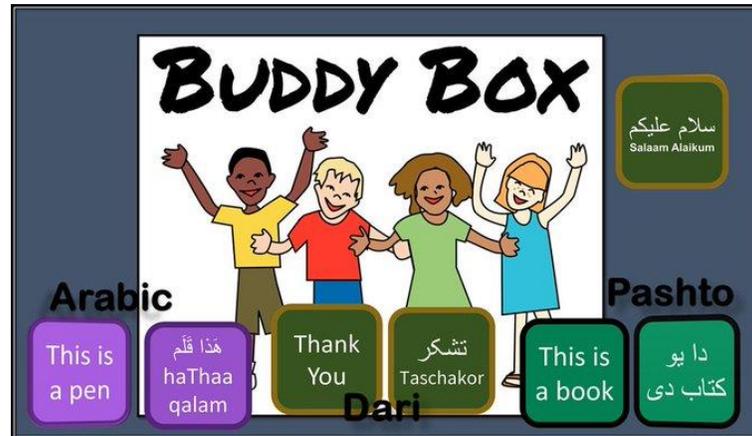

Within '**Buddy Box**' there were circa 60 Arabic/English flashcard's which were designed and created as an icebreaker, an initial communication tool enabling buddies to communicate with each other. Equally '**Buddy Box**' supported young people whose first language wasn't English, developing their new found language skills at the basic level.

Afghan Buddy Box

2021: With the arrival of young people from Afghanistan entering our education system I wanted to create a similar **'Buddy Box'** for Afghan children. I wanted many schools to benefit from **'Buddy Box'** so it was decided to take my 2018 model and move it into the digital space **#TheCloud**

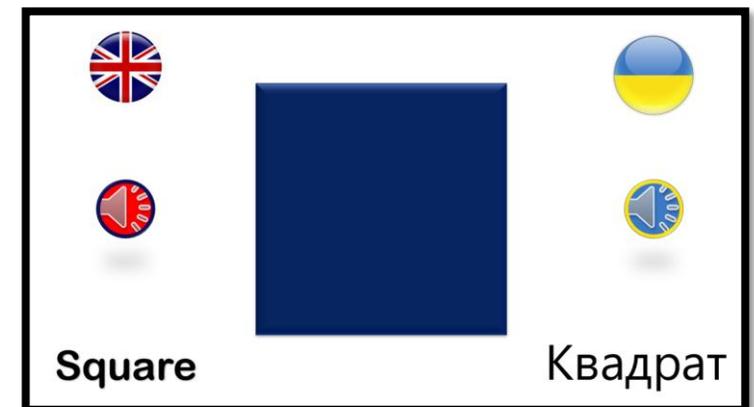

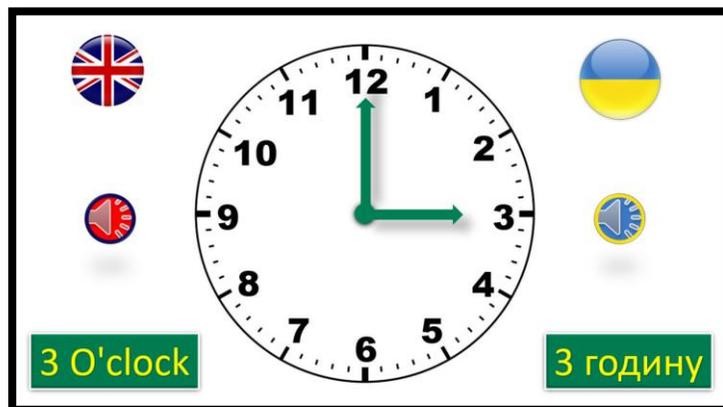

Ukrainian Buddy Box

2022: The war in Ukraine. Seeing thousands of families being displaced my thoughts and prayers were with all Ukrainian families. I wanted to create a similar '**Buddy Box**' for Ukrainian children attending our schools across the UK.

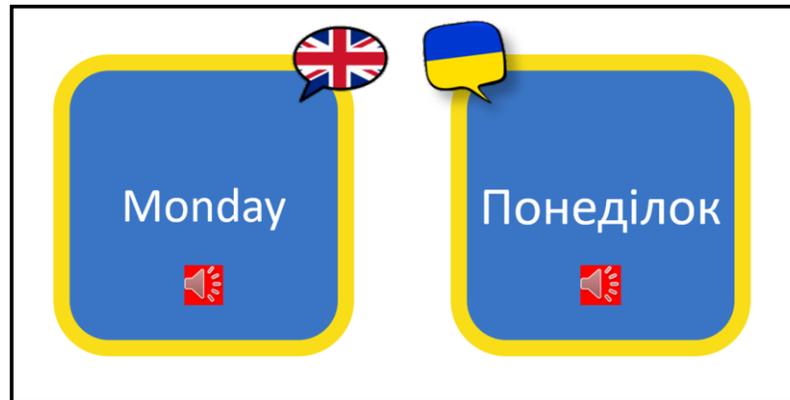

Ukrainian Buddy Box

‘**Buddy Box**’ is cloud based and can be used around the UK and the rest of the world. Once schools have their downloadable link, they can download their own copy of ‘**Buddy Box**’ to their school computer(s), use ‘**Buddy Box**’ as a digital communication and learning resource.

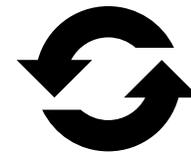

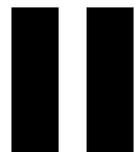

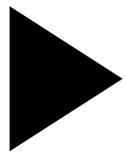

Ukrainian Buddy Box

‘**Buddy Box**’ has been further developed from Flashcards to PowerPoint and now comes in video format.

Ukrainian students can use Buddy Box **videos** to communicate and learn developing their new found language.

Ukrainian Buddy Box

‘**Buddy Box**’ has been created covering **Ukrainian to English** with text, pictures and audio allowing young people to learn and communicate in a fun and educational way.

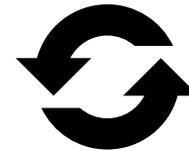

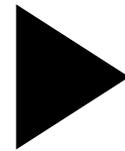

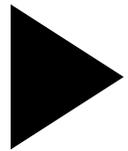

Ukrainian Buddy Box

Videos are powerful and a great way to communicate and learn.

Play – Pause – Rewind – Play – Repeat – Learn

Click any of the video links on the next slide to get started.
